

Thank You!

from Semper Fi Legacy Rescue

Your decision to give a loving home to one of our dogs is important to us and has saved a life.

Remember every dog is unique. Adoption is a lifelong commitment.

Patience, consistency, and love are the most important tools for success!

Behavior Support

Your dog may need training and behavior support to provide for a smoother transition. You are the leader of the pack! Lead and they will follow. If you want professional help with training or behavior issues, call Violet: 770-878-8528. She will complete an assessment with your dog. Please contact her directly to discuss her rates and how she may help you.

3-3-3 RULE

3 DAYS

It takes this long for a dog to decompress

3 WEEKS

It takes this long to start bonding and showing true behavior

3 MONTHS

It takes this long to fully settle into a new home

Putting your dog on a schedule and being consistent with the schedule will help your dog settle in and feel more secure

Create a safe space: set up a quiet, designated area with a crate, dog bed, and familiar items
